Reference request: PhD applications, deadlines from 20 March

To: Dr. A. Sample (fictional), thesis supervisor · Sent: 8 weeks before the first deadline

Dear Dr. Sample,

Thank you again for supervising my thesis. I am applying for funded PhD positions in medical image analysis, and I would be grateful if you could write a reference letter for me.

To make it easy, I attach my CV, my statement of purpose draft, my transcript and a table of the programmes with their deadlines and how each wants the letter sent. The first deadline is 20 March, so I would need the letter by 6 March.

I have listed the three things I hope you can mention if you agree: my thesis, the cross-site experiment and my teamwork with the juniors I tutored. Please say no if you do not feel able to write a strong letter.

Thank you very much for your time. Tania Rahman
